RESPONSE TO AMENDMENT

Priority

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Germany on May 25, 2000. It is noted, however, that applicant has not filed a certified copy of the 100 25 962.6 application as required by 35 U.S.C. 119(b).

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

With respect to claim 1, prior art fails to teach or reasonably suggest a method of adjusting the sensitivity of an optronic fuse system comprising a calibration cycle with steps of storing a gain factor that is dependent upon a measured signal level into a controller for setting the sensitivity of the sensor, the sensor comprising an avalanche-photodiode, the avalanche photodiode having a bias voltage which is set by the controller, and implementing a temperature compensation during the operation of the optronic fuse system commencing from a working point in a temperature curve for the avalanche photodiode which corresponds to a specified reference sensitivity, in addition to the other limitations of the claim.

Claims not specifically addressed are allowable due to their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2878

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
